

## KWWG MEMBERS VISIT RIVERSONG GUITAR FACTORY

**APRIL 06, 2018**

At 4:30pm we assembled outside the Lorne Street entrance to Riversong Guitars.  
When we entered this is what we saw.

This is owner, Mike Miltimore.

He took us through their development step-by-step.

This is their logo and entrance wall.

Downstairs we are taken from wood purchase to finished guitar.

A quick overview of the factory.

Necks are cut out by CNC machine.

## APRIL 06, 2018

Patented neck extensions are added for balance and strength.

Mike explains the strength and balance properties.

Internal structure is vacuum glued.

Mike explains making new forms for body parts.

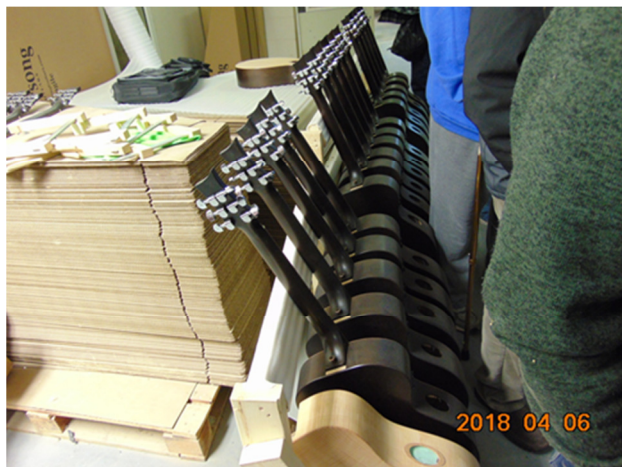

In-house designed internal bracing pieces.

Ready for finishing by Massa.
